22

Founded in 2008 by Amin Haghighat Gou born in Rome, a Italian-Iranian Architect, uc21 architects is a studio with 12 person firm focused on designing meaningful spaces around the world and in our own backyard. We are fortunate to have our route in Rome, aremarkable city of design with rich history. Our experience include Residential building, Office building, commercial building, as well as creative workspaces, restaurants, public realm mixed-use developments, customized design and planning. We work closely and collaboratively with selected clients who understand the value of taking giant design leaps versus incremental steps. uc21 architects record of success is supported by our authenticity, energy, tenacity and, above all, a dedication to proving impactful and socialy relevant design solutions to positively shape the communities and cities in which we work. The work of uc21 architects is exhibited and published worldwide and has received numerous international awards. Architects, designers and other staff develop projects in a multi-disciplinary, collaborative design process which involves rigorous technical and creative investigation

uc21 architects seeks to free architectural imagination from habitual thinking and standard typologies in order to deal with the constantly evolving challenges of contemporay life
